Generator's Declaration

I understand that it is the responsibility of the Generator or Generator's Authorized Representative to determine the characteristics of the waste material and its proper classification. I hereby certify that the information provided in this application and accompanying documents is accurate and complete, and that no deliberate or willful omissions of information exist. I hereby certify that the analytical data provided is representative of the waste to be shipped to the landfill facility, and samples were collected, preserved, and analyzed in compliance with federal, provincial and local laws, Alberta Environment and/or Alberta Energy Regulator requirements. I hereby certify that all known or suspected contaminants and hazards have been identified, and the waste is not classified as a hazardous waste, dangerous oilfield waste, or liquid waste as defined by provincial regulations and guidelines*.

All persons and vehicles enter the site at their own risk. RemedX Remediation Services Inc. assumes no liability for bodily injury or property damage while on Remedx property.

I agree to comply with the standard terms, conditions, policies and procedures of RemedX Remediation Services Inc. and the landfill site, and acknowledge that the Generator has knowledge of all regulations, restrictions, and/or agreements for the acceptance of this material and agrees to abide by said regulations, restrictions, and/or agreements. I further acknowledge that the Waste Generator and/or their Agents will be held responsible for any compliance action and/or incurred costs resulting from incorrect characterization/classification of the waste.
